

U.S. PTO Customer No. 25280

Case# 5668

CLAIM AMENDMENTS

Claims 1 – 6 (cancelled)

Claim 7 (currently amended)

A composition comprising:

- (a) a first fluorine-containing ~~repellent~~ component, wherein said first fluorine-containing component provides repellent properties to a textile substrate;
- (b) a hydrophilic resin, wherein said hydrophilic resin comprises a polyurethane-containing compound;
- (c) a second fluorine-containing ~~soil-release~~ component, wherein said second fluorine-containing component provides soil release properties to a textile substrate; and
- (d) a crosslinking component.

Claims 8 – 23 (cancelled)

Claim 24 (currently amended)      The composition of claim 7 wherein said first fluorine-containing ~~repellent~~ component is selected from the group consisting of fluoroacrylates, urethane derivatives, esters, acrylic amides, oligomers, and polymers.

Claim 25 (currently amended)      The composition of claim 24 wherein said first fluorine-containing ~~repellent~~ component comprises a fluoroacrylate.

Claims 26 – 28 (cancelled)

Claim 29 (previously presented)      The composition of claim 7 wherein said crosslinking component is selected from the group consisting of derivatives of melamine formaldehydes, epoxides, derivatives of isocyanates, and anhydrides.

Claim 30 (previously presented)      The composition of claim 29 wherein said crosslinking

component comprises a derivative of isocyanate.

Claim 31 (previously presented) The composition of claim 7 wherein said crosslinking component is hydrophobic.

Claim 32 (previously presented) The composition of claim 7 wherein the ratio of (a):(b):(c):(d) is within the following range: [about 1-10]:[about 1-10]:[about 1-10]:[about 1-10].

Claim 33 (previously presented) The composition of claim 7 additionally comprising an additive component, said additive component being selected from the group of additives consisting of durable press resins, catalysts, lubricants, softeners, antimicrobial agents, antistatic agents, flame retardant agents, and light stabilizers.

Claim 34 (previously presented) A textile containing the composition of claim 7.
